This is my comment on the Court Rule No. 2003-47.

The Michigan Constitution as well as the United States Constitution makes it clear that judges are not to make the law but rather interpret the law. Why is the Michigan Supreme Court even considering taking steps that would effectively change the law by denying Michigan asbestos disease victims their right to a jury trial.

It seems that Michigan and the Michigan Supreme Court are being used as tools of the asbestos industry and big business to deny working people their constitutional rights to jury trials when harmed by corporate misconduct.

The real crisis in Michigan is the failure of corporations to take responsibility for their bad actions and the willingness of big business and certain conservative republican judges to blame the victims of corporate misconduct in stead of holding the corporations accountable.

It most certainly effects me because I am one of the abestos disease victims. This reminds me of the Erin Brockenvitch story.

Please consider this and help the abestos disease victims. I remain,
